

## SITHEMBISO INNOCENT KUNENE

### OBJECTIVE

A highly aspired software developer seeking for an entry position in a fast paced and challenging environment in the field of software development, mobile development, business analysis and modeling, software testing, and database development and administration to apply my skills and experience to real problems and prove to be a valuable resource to the organisation

### EXPERIENCE

#### K-Tel Solutions

03-04-2022 - 30-09-2023

Software developer intern

During my software development internship, I specialized in React.js and React Native, contributing to both web and mobile application projects. I collaborated with the development team to build responsive user interfaces using React.js and create cross-platform mobile applications with React Native. My responsibilities included writing and optimizing code, debugging issues, and participating in code reviews. This experience enhanced my skills in JavaScript, component-based architecture, and mobile development, while deepening my understanding of modern front-end and mobile app frameworks.

02-04-2022 - 31-10-2022

Work integrated learning Internship

During my internship, I gained hands-on experience in software development. On the software development side, I worked on building and maintaining applications, utilizing programming languages like C# and frameworks such as Object-Relational Mapping (ORM), and Web Api features for building RESTful services using C#. I was involved in tasks such as coding, debugging, and participating in code reviews.
